# Report 8 - convert RGB2HSV and HSV2RGB using cuda

Le Nhu Chu Hiep

November 28, 2021

## 1 Algorithm

- Implement CustomColor class for performing rgb and hsv convertor for each pixel.

- Write 2 global function which are ConvertRGB2HSV and ConvertHSV2RGB for parallel loading each pixel to CustomColor to convert and save back to array. Same way for converting HSV to RGB pixel.

# 2 Result

## 2.1 Text Result

```
USTH ICT Master 2018, Advanced Programming for HPC.
