Report 5 - Gaussian Blur from CUDA

Le Nhu Chu Hiep

November 8, 2021

1 Implementation

- Build new kernel function to perform convolution with blur kernel

- Reuse host logic of labwork 4 to run new kernel

2 Result

2.1 Text Result

```
USTH ICT Master 2018, Advanced Programming for HPC.
Warming up...
Starting labwork 5
labwork 5 CPU ellapsed 71.9ms
Block Size: 1024, Grid Size: 1900
labwork 5 GPU no shared mem ellapsed 16.2ms
Block Size: 1024, Grid Size: 1900
labwork 5 GPU shared mem ellapsed 17.0ms
labwork 5 ellapsed 17.0ms
```
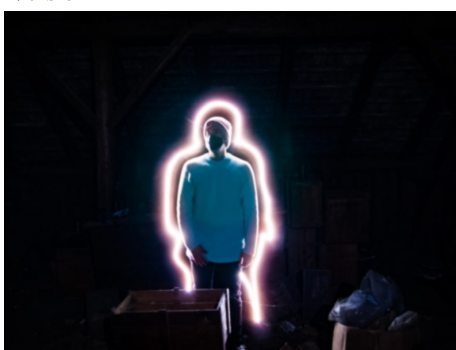

2.2 Image Result

(a) CPU Version

(b) GPU Without Share Mem Version

(c) GPU With Share Mem Version
